Deep, Deep inside of your heart  
There is a weight that still needs to be lifted  
You covered it up, but the pain never stopped  
Sometimes I wish that you would just listen

Deep, Deep inside of yourself  
There is a soul starving for some affection  
Been waiting for years,  
And the time passes by all you ever wanted was to fit in

So I wrote you this song, I hope that you like it  
Cause you light up my life and I know you can fight this  
You're the most beautiful girl in the world,  
And I wanted you to know

Constantly waiting for life  
The start of love that surrounds it  
If you only looked right by your side  
You'll find that it never had left you

Live through so much,  
And seen so many things through your eyes  
And I wish that you could just see

If it were up to me I would construct a key to your heart  
And finally set you free

So I wrote you this song, I hope that you like it  
Cause you light up my life and I know you can fight this  
You're the most beautiful girl in the world,  
And I wanted you to know

You came calling, You've got no reason to hide  
You're so lovely, built with a beautiful mind  
(You came calling, You've got no reason to hide  
You're so lovely, built with a beautiful mind)  
We will run and when will you relized your so special  
(You came calling, You've got no reason to hide  
You're so lovely, built with a beautiful mind)  
You're so Beautiful to me dear

You came calling, You've got no reason to hide  
(We will run and when will you realize you're so special to me)  
You're so lovely, built with a beautiful mind  
(You're so Beautiful to me dear)

Built with a Beautiful mind,  
Built with a Beautiful mind,  
So I wrote you this song, I hope that you like it  
Cause you light up my life and I know you can fight this  
You're the most beautiful girl in the world,  
And I wanted you to know
