Believe me
This isn't quite what I wanted
I wish that you would take a look inside
And trust in everything that you know

It's time now
To take a step back and think friend
Cause the decisions you're about to make
Make things harder for you

You got a good head on your shoulders
But you've waited way too long
Now you're rushed with a decision
And I hope that you stay strong

Cause we've got the answers
Please stop running around
Always running around
Tried so hard to help you
Keep your feet on the ground
Keep your feet on the ground
Here to listen to you
To help you through hard times
We know exactly what you're going through tonight

You keep to yourself
When you can't even think straight
Try to work things out
The way you know and predict it
But they don't know, they can't judge you
And that's all you care about

Out there making money
To try and feed a family
Who don't appreciate the things that you do
You've got to get up now and start a better life

Cause we've got the answers
Please stop running around
Always running around
Tried so hard to help you

Keep your feet on the ground
Keep your feet on the ground
Here to listen to you
And help you through hard times
We know exactly what you're going through tonight

You know that you hate the things you have seen
(Keep on running, oh you keep on running)
Deliberately hiding from all your dreams
(Keep on running, oh you keep on running)
You sit there and you worry, always in a hurry
But we make the time if it makes you happy

And just so you know
I've been building all of these things
From the ground up to the sky
Took a very long time, don't give up
Cause you've been fighting way too long to let go of
your life
Take a step, find your path and you'll know

Cause we've got the answers
Please stop running around
Always running around
Tried so hard to help you
Keep your feet on the ground
Keep your feet on the ground
Here to listen to you
To help you through hard times
We know exactly (We know exactly)
We know exactly (We know exactly)
We know exactly what you're going through tonight
