Keep me, here up on top of the mountains  
Far away from all distress, far away from all distress  
Save me, free me from all these distractions  
Violence filled interactions  
Save me, but keep me awake

I can't seem to find a place to fit into  
Without all these lies, I can't even argue  
And to tell you the truth  
Now that I've wondered throughout all these cities  
Through bright white street lights even though they're  
so pretty  
I just can't believe you

(And when i'm alone, please just pick up the phone)  
You'll feel better once you come back home  
We'll say just forget about all of the things you can't  
save  
(Take a ride out of town)  
Find some place you can call your own  
Find yourself a new home  
(Cause i'm wondering now and how i'll get by)  
Where you're never alone  
(Just keep wishing that something would change in my  
life)  
Go ahead, run away  
Try to find myself and take a chance

Cause the roads that we take can confine us or set us  
free  
Make your path, don't you break  
Just need to get away  
And you've been so tied up with your life  
Take a break from it or you won't last

Keep me, here up on top of the mountains  
Far away from all distress, far away from all distress  
Save me, free me from all these distractions  
Violence filled interactions  
Save me, but keep me awake

I'll give you my trust, please don't break it

Hiding from all the things, i can't help but be scared  
Leaving now starting fresh, hoping i come prepared  
Say the words and i'll try, finding faith in their lies  
Don't give up to my word, come on just let me know  
Trying hard to be brave, but you just run away  
Some things just never change, don't you dare be  
afraid  
Pack your things, leave this town, reminisce for awhile  
But we'll never go home

Cause the roads that we take can confine us or set us  
free  
Make your path, don't you break  
Just need to get away  
And you've been so tied up with your life  
Take a break from it or you won't last

Keep me, here up on top of the mountains  
Far away from all distress, far away from all distress  
Save me, free me from all these distractions  
Violence filled interactions  
Save me, but keep me awake

I'll give you my trust, please don't ever break it
