Only in this moment will my heart remain beside you,
Only in this moment will our passion stay alive!
Lost in love's embraces will our memory fly!

Forgive me, too ...

It hurts in me.
And you...

Two minutes from time, love in one tries, survive through it all!

With this song and chance, love has a chance,
to prove what we knew all along!

(chorus)

Oh, you ...

The pain in me now with this sadness vows to live as never before!

(repeat chorus twice)

Oooh
