Spread your legs
Spread your arms
You might be a criminal
Trust is irrelevant

We are war
So wait in line
Do as you're told
For now you're mine

Take off your belt
Take off your shoes
Let search your body
I have to feel you

I love to yell in your ear and explain the rules - loud and clear

Take off your belt
Take off your shoes
Let me search your body
I have to feel you

Take off your belt
Take off your shoes
and in your water bottle, nail clippers too
