

Scorpions, The "Mind Power"

Visit "[Mind Power](#)" on MotoLyrics.com

Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain

Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day

So when you walk through the door
Is this the bottom word
The fortress of violence will fall
When the tide will turn

Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain

Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day

Is there a place you belong
When there is no love
The light that shines is so strong
When you come out of the dark

Yeah

We're living in a violent world
It makes our heart just freeze
Let's melt the ice with heart and soul
To heal a world that bleeds
(to heal a world that bleeds)

Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain

Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day

Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day

So when you walk through the door
Is this the bottom word
The fortress of violence will fall
When the tide will turn

So when you walk through the door
You can make it too
The fortress of violence will fall
If you want it to

Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain
Don't use your fist, use your brain

Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day
Mind power, every hour, any minute, every day

Mind power
