

## Scorpions, The "Miracle"

Visit "[Miracle](#)" on [MotoLyrics.com](#)

We took the long way  
The long way home  
And now it's just one step to go  
All those hours alone  
With only thing to get me home  
Will I get out of this?  
And all that's left for me is hope  
Now all I'm hoping for

Chorus:  
Is a miracle (a miracle)  
To see the daylight  
A miracle  
The sky so blue  
It's a miracle (a miracle)  
To find a new life  
A miracle  
To be back with you!

In the darkest hours  
Alone with all your fears  
All you can think of  
Are those happy days  
So much we take for granted,  
But life's a fragile thing these days  
When the time is up  
All you're hoping for  
You're hoping for

(chorus)

All I need

(chorus)

To be back with you...(a miracle)  
Just one more step  
One more step...(2)  
To be back with you...(2)
