"When You Came Into My Life"

Visit "[When You Came Into My Life](#)" on MotoLyrics.com

you give me a smile
a piece of your heart
you give me the feel
I've been looking for

you give me your soul
your innocent love
you are the one
I've been waiting for
I've been waiting for

we're lost in a kiss
a moment in time
forever young
just forever
just forever
in love

when you came into my life
you take my breath away
'cause your love has found its way
into my heart

you make me dream
by the look in your eyes
you give me the feel
I've been longing for
wanna give you my soul
all my life
'cause you are the one
I've been waiting for
I've been waiting for
so long

when you came into my life
you take my breath away
and the world start turn around
for your love
when you came into my life
you take my breath away - oh yeah
'cause your love has found its way

into my heart, into my heart

just forever
in love

when you came into my life
you take my breath away
and the world start turn around
for your love
when you came into my life
you take my breath away - oh yeah
'cause your love has found its way
into my heart

when you came into my life

when you came into my life
you take my breath away - oh yeah
and the world start turn around
for your love
when you came into my life
you take my breath away - oh yeah
'cause your love has found its way
into my heart
