Only in this moment will my heart remain beside you
Only in this moment will our passions stay aligned
Lost in love's embrace is where our memories lie

Amar es todo dar...perdoname (forgive me too)
Es que no pense (it hurts in me)
And you

Juntos podemos seguir
Darle otro rumbo a esta historia
Stood minutes from time but you and I
Survived through it all
Dime que puedes sentir
Que no termine este sueño
With this song and chance love has a chance
To prove what we knew all along

[Chorus]

Somos dos sueños del tiempo
Baila conmigo en el viento
Desnuda tus sentimientos
Hasta el ultimo momento
Mi todo eres tu

Solo soy libre a tu lado
El miedo quedo en el pasado
Fulfill me now with this endless vow
To live as never before
(repeat chorus 2x)

Hasta el ultimo momento...
