All by myself with nobody
The club is getting hot
My pockets are getting fat

.. sound a little irrational
Get yourself .. used to .. from the Bronx
Now I am making records ia m spitting like an animal
I pick up the mice .. you know my style
You know my name
I used to rock battles , still .. microphone
.. one love .. chopping ..trying to keep the Gucci
.. when the time I am in a .. when Is hot outside
I am trying .. summer track

All by myself with nobody
The club is getting hot
My pockets are getting fat

On and on till the .. dome
.. if you can name more .. you should know what I am on
.. DJ eat my hands you don't need forks
, trying to keep the .. alive with the .. even when is
nigger season
Been in class on my own not a teacher speaking ..
never went solo
Never went pop . real hip hop

All by myself with nobody
The club is getting hot
My pockets are getting fat
