(How did we reach this state?
The inevitable decline of conformity
We are prisoners inside our own creation...)

Impulse to shattered nerves
Like a flash of light
A swing of the axe in broad daylight
Another hostile act
A silent man's retaliation
Defending the outcast
Staring into emptiness
Wit glazed evil eyes

Impact relieves the pain!

Chorus:
Inside your mind
Is the storage of your fears
Inside your mind
Is the crypt of chaos
Inside your mind
Is the dumping ground
Of neurological waste
Grading:Deranged!

Impulse to a closed mind
Brain damage case
Medication failure creep
In a violent havoc state
A mental soul drifter
Kicked out on the street
Consuming mind controllers
Like breathing thin air

Impact relieves the pain!

Chorus:
Inside your mind
Is the storage of your fears
Inside your mind
Is the crypt of chaos

Inside your mind
Is the dumping ground
Of neurological waste
Grading:Deranged!

Impulse to blazing eyes
A sight of madness alive
Nervous disorder attack
Outsider will demise
Maybe it's better for you
To reign a private hell
Than to live in slavery
In an institution for eternity

Impact relieves the pain!

Chorus:
Inside your mind
Is the storage of your fears
Inside your mind
Is the crypt of chaos
Inside your mind
Is the dumping ground
Of neurological waste
Grading:Deranged!
