

Screaming Jets, The

"C'mon"

Visit "[C'mon](#)" on MotoLyrics.com

I watch my TV screen
Life flashing before me
So tell me what does that mean?
And why does it bore me?
Come on, let me show you how to do it
I hear the radio and the songs they play
Makin' my stomach turn
I just want to hear some rock 'n' roll
I watch my radio burn
Come on, let me show you how to do it
Come on, let me show you how to do it
I see the plastic people leading plastic lives
Substitute child, disposable wife
Follow your TV, it is your guide
The family cries when the TV dies
Come on, let me show you how to do it
Come on, let me show you how to do it
