let me know, you gotta let me know
let me know, you gotta let me know

tell you what i think about you
tell me what you think about me
boy i cant even lie i think about it constantly
baby you been on my mind, and I really want to see
how you feel about me so you gotta let me know
we've been kickin' it for awhile, and i really like your
style
your personality, its the cutest thing i've ever seen
think i could be down for you, if you really down for me
aint no doubt about it, i want you on my team.

but it only right when you feel like
there's a place where you'd rather be
and its so obivious, the two of us
go together, so i was just thinking

I was just thinking that
maybe we should be a little more than friends
cause I like the way we kick it
and I dont want this night to never end
said i only want to be with you (x2)

i was just thinkin that
tell me me what on my heart
tell me whats on you mind
boy i kno ur feeling me cause i can see it in your eyes
ive been diggin you for a while
and i really wanna try to make this forever tonight
and i hope that you can truely see
what it is you that you mean to me
we ain't gonna rush, just take it slow
boy i just want you want to know

but it only right wen you feel like
there's a place where you'd rather be
and its so obivious, the two of us
go together, so i was just thinking

I was just thinking that
maybe we should be a little more than friends
cause I like the way we kick it
and I dont want, this night to never end
said i only want to be with you (x2)

i was just thinkin that
let me know, you gotta let me know
if you feel the way i feel let me know, let me know
let me know, you gotta let me know
let me know, you gotta let me know
let me know, you gotta let me know
if you feel the was i feel let me kno, let me kno
let me know, you gotta let me know
gotta let me know

I was juss thinking that
about maybe we should be a little more than friends
cause I like the way we kick it
and I dont want, this night to never end
said i only want to be with you (x2)

i was just thinkin that
let me know, you gotta let me know
let me know, you gotta let me know
