Music: Yattering

Lyrics: Marcin Swierczynski

Psychopath instincts  
Gave in modificationed genes  
Inoculated was into  
Wearer organism  
Devastated her uterus inside  
Taken power (medium) from cels of givers  
days wanted him...so he struggled without problems  
Tearing bosom  
Went into world into other world

When he's struggling under control of the "project"  
He sewed himself between messes and he's  
destroying  
Other satisfy his desires  
Damned...Possibilities...let him...to open...  
Sick...register...of chaos  
(Not his world who was passing - wanted)

A lot of people helped  
This devil's son of the bitch  
Transferred his essence of  
Taste experiences hell  
He saw and felt a beauty  
Passing through  
The demonic imagination  
And Demons and Vampires  
-Took him in day of glory -  
He felt strong so he'd opposed  
-Who give him a live-  
Fettered in the whirl of crazy spirit and body  
He's penancing in the unimagined world  
His anger brows beat us  
If he'll slip a way taking everything  
Into his "eye"  
Inocunarting anger  
And terror fear
