Music: Yattering

Lyrics: Marcin Swierczynski

Closing eyes

Do you fill overtaking pain?

Moving medial pictures...

You're vomiting with blood...

Murderer family...Shot child... Massacred body...

...The victim of attack...maltreated woman...

During spasms

You fill going through

You shutter

"Death Gate" is inside you

It's going - you fill again...

Wonderful dark world

Unnaturally zone born by human

Dark walks through streets

Terror...Death...Plague...Clearence...

Last seconds of life, falling into abyss...

Shutter - murderer family

The last glance, clean event and place - shot child

The last conscience, speed and great hit - massacred
body

The last move, cut larynx - the victim of attack

The last thoughts about children

Bloody eyes, broken bones - maltreated woman...

Revenge is coming slowly

The last want to come and live - through you...

You're to help them

To be the "Gate"

Millions of spirits are to pay

attention at you

Last want to fill...

Bestial world of murder

Unimaginable zone born by demons

Bright glitter flowing the world

Pain...Insanity...Cold...Clearence...
