Yup. I saw you i the club late last night and ask your  
phone number you slipped it into my hands and  
giggles mischievously

i told my bestie yoy were all I ever wanted  
Now you're here  
we can pash

I told you to call me up  
Call me up  
So we can get together sometime  
call me up  
call me up

But you never did

I cried myself you sleep last night  
because of you  
now i'm half dead

i told my bestie you were all i ever wanted  
now you're here  
we can pash

call me up  
i told ya  
call me up but you never did  
eh?
