Silence will be true  
My second night with you  
Said I'd trace my faith  
Where I'd stand in time

I accept my faith  
Walk me all through you  
Walk me all through you

Oceans I will see I hold alone again  
I accept my faith sacred only to me

A stained glass tear  
A window through  
Walk me all through you  
I am not afraid of  
All the shades  
We dreamed of faith [x3]

Silence will be true  
My second night with you  
Said I'd trace my faith  
Where I'd stand in time

I accept my faith  
Walk me all through you  
Walk me all through you

Oceans I will see I hold alone again  
I accept my faith sacred only to me

We dreamed of faith [x6]

I accept my faith, will only offer to you  
Only offer to you

We dreamed of faith [x3]
