Well I didn't see you care
Well I didn't see you there
And I thought that we were meant to be together
Well I guess I'm wrong
Your smile will never leave my mind

You have a lifetime to say
What you feel for me
This is a cool breeze of pain
You make me feel I'm insane
Where there is will there's a way
And every guy has his day
And now with nothing to say
I choose to sit here and pray
But every cloud has a silver lining

Your hair glance upon the street
And I am hopeless in my defeat
Where there is grey, you walk away
You come and leave, no matter time of the day
Well I didn't see you care
And I didn't see you there
Your eyes are your beauty
Your hair is your grace
With you I'm in a better place

You have a lifetime to say
What you feel for me
This is a cool breeze of pain
You make me feel I'm insane
Where there is will there's a way
And every guy has his day
And now with nothing to say
I choose to sit here and pray
But every cloud has a silver lining

And I see you
Watching me on the floor
And I need you
And I need you to give me more
