It follows me
Everywhere
I go

You're leaving me
Like warfare
It's like your face resembles the end
So I'll leave this place
and this time it's for good
'Cause I'm finding myself in an endless circle,
and you are out of the line

Well I'm not sure if it's gonna work,
I know it's hard

We're going Down, Down, Down
Let your eyes see the world
We're going Down, Down, Down
Like in a dream, I'm standing on my own

Turn off your phone
Do something else,
what's the point of fighting for figuring out
Please go to sleep,
It's getting easier
When the morning sun comes ahead

Well I'm not sure if it's gonna work,
I know it's hard

We're going Down, Down, Down
Let your eyes see the world
We're going Down, Down, Down
Like in a dream, I'm standing on my own

We're going Down, Down, Down
Take a chance to be free
We're going Down, Down, Down
(Oh)

The glory's trapped in symphony

Will you grab it
And wear it with pride?
Yeah, we've come to the point of no return
We're facing the future terrains, we are free of concern
Yeah

We're facing a new world
Your heart is all okay,
You're all okay

(I finally see the faith in me, my mind and soul are
telling me)
I finally see,
I see
the sun rise up in the sky
and I'm sure that it's gonna work
I know it's hard

We're going Down, Down, Down
Let your eyes see the world
We're going Down, Down, Down
Like in a dream, I'm standing on my own

We're going Down, Down, Down
Take a chance to be free
We're going Down, Down, Down
(Oh)
