I think I'm losing
I think I'm losing you around
I think you take it, from me
I've been using,
I've been using you around
I think you take it, from me

But I'm not stupid
Just need someone to get me through
Some moments spending times with you
Cause baby that's a drag
I think I'm losing
All the rhythm that I had before
Forcing through my veins and through my heart
Back when I was young

But I'm not stupid
Just need someone to get me through
Some moments spending times with you
Cause baby that's a drag
I think I'm losing
All the rhythm that I had before
Forcing through my veins and through my heart
Back when I was young.
