Sometimes it can feel like I'm alone
When you're not around and I am on my own
But there is one thing, that's not so hard to do
Because you, you make lovin' you easy
When you smile, everything is alright
Because you, you make lovin' you easy
When your arms are holding me tight

Every time you leave, I miss you so
I can bear the thoughts of letting you go
But when you kiss me, it all just seems so simple
Because you, you make lovin' you easy
When you smile, everything is alright
Because you, you make lovin' you easy
When your arms are holding me tight

Because you, you make lovin' you easy
When you smile, everything is alright
Because you, you make lovin' you easy
When your arms are holding me tight X 2
