"Erased World"

Visit "[Erased World](#)" on MotoLyrics.com

The mirror
Is not reflecting the disgraceful image
That I used to see in front of me
A glimmer of hope that comforts me . I' m safe

I'm safe, I'm safe, I'm safe, I'm safe

Unimportant chosen ways
Getting better

In a general state

I' m safe, I'm safe, I'm safe

Never stepping back
Nobody turns around
Looking straight forward
We'll be in touch

I 'm safe, I'm safe, I'm safe,

A breakdown
I'm the being I wish to be
The movements
not predictable
The pieces had run away
breaking all the rules and...
I can't avoid it, this is the choice
I can't avoid it, this is the choice

Following the lights out there
Superficial tendencies removed from my routine
They're belongings from an erased world
It's not a shame, shame, shame
I got disconnected, unplugging cables from machines
And the burden has been properly towed away

Studied plan
I need to run

Smells like burnt

I need to run
I can't avoid it, this is the choice
I can't avoid it, this is the choice

Following the lights out there
Superficial tendencies removed from my routine
They're belongings from an erased world
It's not a shame, shame, shame

I got disconnected, unplugging cables from machines
And the burden has been properly towed away

Following the lights out there
Superficial tendencies removed from my routine
They're belongings from an erased world
It's not a shame, shame, shame
I got disconnected, unplugging cables from machines
And the burden has been properly towed away
