Everything I touch,
Targets that I shot
Turn to little pieces, tiny pieces,
I am not exaggerating
I know how it sounds
I fix my eyes on you
This is exciting, relaxing

The end of the film is never the same
Follow me, inside my head
Spies of the universe
Why not. why not
We'll get a seat.
On tomorrow's flight.
I heard about a great new show.

You press the button,. Hurry up!
This is called 'a good start' for me.
We'll shoot right now,
Do it, do it.
I'm gonna stay here above
And this is how it works.
Your characters are never bored
I know how it sounds

I fix my eyes on you
This is exciting, relaxing
The end of the film is never the same
We'll get a seat.
On tomorrow's flight.
I heard about a great new show.
You press the button,. Hurry up!
This is called 'a good start' for me.

We'll shoot right now
Invisible spies of the universe
This is called 'a good start' for me.
We'll shoot right now,
She called, She called
