Since the second I met you  
I am another  
Whenever I close my eyes  
I understand it

Since the moment  
that my luck  
Became my worst friend  
The only song I've played  
Sounds so boring

My game is over  
I've got no coins to insert  
If we'd had more time to know each other

When I wake up  
in the night  
And there's nobody near  
Fear comes to me again  
I'd like to change  
the script  
To be the first

Maybe I am dreaming  
I've been drinking  
So excuse me
