I've got to make you see  
You're not the girl for me  
And I will prove it to you  
So that you will see  
I will let go of you girl

You girl I have to show  
That things are really bad  
The things that you have said  
The words that make me mad  
I will let go of you, girl

You're gonna cry  
You're gonna cry  
You're gonna cry  
You're gonna cry  
You're gonna cry  
Yes, you will cry

I've got to make you see  
You're not the girl for me  
And I will prove it to you  
So that you will see  
I will let go of you girl

You girl I have to show  
That things are really bad  
The things that you have said  
The words that make you mad  
I will let go of you, girl

You're gonna cry  
You're gonna cry  
You're gonna cry  
You're gonna cry

Make haste, it's late  
Go pack your things away  
They changed that cold view  
The sky that would not  
Leave your life, it's blue

I've got to make you see  
You're not the girl for me  
And I will prove it to you  
So that you will see  
I will let go of you girl

You girl I have to show  
That things are really bad  
The things that you have said  
The words that make you mad  
I will let go of you, girl

You're gonna cry  
You're gonna cry  
You're gonna cry  
You're gonna cry

You're gonna cry  
Yes, you will cry  
Yes, you will cry  
Yes, you will cry
