[Spoken Word]

This is Big Snap representing The Brotherhood  
O.T.S. Holding that 7 sign high  
Freemasons alike, we all in the same struggle  
The key is to come together for a common purpose  
That purpose is to teach the lil' homies how to live life  
If we all come together The Brotherhood will survive  
Keep ya head up, Tupac, we miss you

[Verse 1]

Eluding the cops by all means, triple 6, glocks, buckles  
and beams  
I take the brotherhood to heart with me  
I take the 7 sign, hold it high, represent pride  
And do what I got to do to survive, it's do or die  
In this lifetime times get rough and I get tough  
As if the drama in this life just wasn't enough  
And I'll never devulge the secrets that I've been taught  
About the struggle that me and my people have all  
fought  
Like Tupac, you was a genius, a lyrical man  
Hold the 7 up high and always think of homeland  
And I'll await the year 2003 and then we will see  
'Till then homie, I'mma keep it all in me  
They'll never figure nothing out until the message is  
out  
But the shadow is over my soul and it'll never come out  
And there's one thing y'all gotta realize while hearing  
this  
The S.U Brotherhood, homie, is planning some hits  
And when I die I hope to reincarnate and become a  
teacher  
Exit Big Snap, enter Paco The Preacher

[Chorus]

The Brotherhood is taking over, the end gets closer  
Don't try to challenge me or my crew, because we  
doper  
We settin' up shop in your town, your goin' down  
We sparing no expense on your life, we finna clown

[Verse 2]

The mission at hand, is for the Brotherhood to make a  
big stand

And Freemasons alike, you come along because we  
are fam

And I am the man, Big Snap from UGF clan

And I represent Cali 'cause it is the homeland

And I have a plan to rid the world of alien men

peeps that shouldn't be here, you'll die before you  
count to 10

I escape the world through the Underground Railroad

And leave clues as to where I am at but do not rat

I'll be back, let my legacy live, if you my nig

'Cause if you let it out, I'll fa sho pull the trig

Now lets ammo up and hit the spot, but don't drop

The Brotherhood is a shadow, invisible to cops

Don't talk biz on the phone because it might be tapped

And if you say the wrong words then we might get  
trapped

We come swift and unnoticed and that is a fact

And if you ain't with this lifestyle, you better adapt

[Chorus]

The Brotherhood is taking over, the end gets closer

Don't try to challenge me or my crew, because we  
doper

We settin' up shop in your town, you going down

We sparing no expense on your life, we finna clown

[Verse 3]

Keep the lessons that you've learned deep in your soul

Don't give us up to the foes or them crooked po-po's

And if you want to learn more cuz, then look up to me

And on the Mason sign, you'll learn the true meaning of  
the "G"

I'm a preacher 'cause of the words that I speak, I like to  
preach

I like to see reactions from the souls that I've reached

Don't even come at me with lies, 'cause I ain't got the  
time

I might not be too old but I've entered my prime

The Brotherhood moves swift and unnoticed, don't try  
to focus

Now you see us now you don't, this ain't no hocus  
pocus

Me, Oath, OutSpoken and D hittin' y'all hard with  
something proper

My homies Cyco and GK are ready to drop ya

Don't stress if I wear a Blue Rag in a Red Rag's hood

Just know that if you step to us, it won't all be good
