And now you tell me that we're through
I gave my better time to you
How can you say that I'm to blame?
You're the one that isn't quite the same

Think on it girl, think on it girl
What do you know ?

I've tried to be both just and fair
Have I insisted that you care?
Have I misused the right to choose?
And who can say that you're to lose?

Think on it girl, think on it girl
What do you know ?

I feel as though, I'd like to know
What did I do? Did I force you to go ?

I ask you, how can you tell me that we're through?
I've seen the world more than you
How can you tell me to my face
You've found someone else to take my place?

Think on it girl, think on it girl
What do you know ?

I feel as though, I'd like to know
What did I do? Did I force you to go?

I ask you, how can you tell me that we're through?
I've seen the world more than you
How can you tell me to my face
You've found someone else to take my place ?

Think on it girl, think on it girl
What do you know ?
