(Verse)

Dear Diary, she is the one that ive been waiting for.
Too quickly, slow things down so I can hold my last
breath.
Hold tightly, because you feel cold, my wounds are so
sore.
Follow me, I cannot let you go, we could escape in
death.

(Pre-chorus)

I don't wanna let you go,
So I won't until we know.
I don't wanna let you go,
It's just me and you tonight.

(Chorus)

I could hold you till I'm gone.
But you'll be gone for far too long.
I'm your angel watching you,
Always knew you never knew.

Can we dream?
That you never knew i always loved you.
Stop breathing.
When you hear my name, you'll remember.

(Verse)

Dear Diary, it took us years to catch on fire.
Too quickly, life's too short when I'm with you.
Hold tightly, because you are safe with me, I'm safe
with you.
I love you, before we know who's killing who.

(Pre-chorus)

I don't wanna let you go,
So I won't until we know.

I don't wanna let you go,
It's just me and you tonight.

(Chorus)

I could hold you till I'm gone.
But you'll be gone for far too long.
I'm your angel watching you,
Always knew you never knew.

Can we dream?
That you never knew i always loved you.
Stop breathing.
When you hear my name, you'll remember.
