(Verse)

When was the last time i felt your kiss?  
Your gone for now, but you'll be missed.  
I hold the key to your heart.  
Nothing could tear us apart.

Hold my heart, it's safe with you,  
Can't you tell i always knew  
that i love you?  
Can't we pretend it's true?

(Pre-Chorus)

(Is it something you missed?)  
(For you, I would die for this)  
(Let me kiss you one last time before the night is over)

(Chorus)

Nothing's keeping us apart,  
I always loved you from the start. (I'd do absolutely  
anything for you)  
Even dieing just to save you,  
It's okay, I'll always hold you in my arms. (This is true  
love)

(Verse 2)

It's okay, hold back your tears.  
I will fight off all your fears.  
Today's our day, hold your breath.  
I won't pretend that you left.

Kiss me and cry, come into me.  
(Bring up, bring up) the memories.  
I could help us, make it better.  
Maybe we could last forever.

(Pre-Chorus)

(Is it something you missed?)  
(For you, I would die for this)  
(Let me kiss you one last time before the night is over)

(Chorus)

Nothing's keeping us apart,  
I always loved you from the start. (I'd do absolutely  
anything for you)  
Even dieing just to save you,  
It's okay, I'll always hold you in my arms. (This is true  
love)

(Bridge)

Sit tight, close your eyes, i might, find out why time's  
passing by.  
Hold your breath until death we wouldn't fall if you fall  
first.  
We could last a lifetime, let me feel your kiss one last  
time.  
Keep this final note inside your heart until you find.

(The Love Inside)

(Chorus) x2

Nothing's keeping us apart,  
I always loved you from the start. (I'd do absolutely  
anything for you)  
Even dieing just to save you,  
It's okay, I'll always hold you in my arms. (This is true  
love)
