Visit "[Don't Call](#)" on MotoLyrics.com

believe me this is strange
im struggling just to make this
and its totally a stretch
im trying just to fake it
but i just cant commit
and the words just come
out wrong and so am i

but all i know dont call
dont call, dont call,dont call

you just wait, ill be there next year
you just wait, ill be there soon

all i know, dont call, dont call
dont call, dont call

ill wait up for you, for years
to hear you say maybe today

dont call, dont call
dont call,dont call
