When you left  
I couldn't take it  
Just one more time  
It drove hole right through my heart  
And now that your gone  
I cant fake it  
One more time  
You left a hole right through my heart

Chorus:  
So I, I watch you like a midnight movie  
You, You act as if you never knew me  
All this time  
Yeah Yeah  
and I, I watch you like a midnight movie

Staring at the screen  
Wishing that could be you and me  
Staring out my car window  
I'm watching you watching you watching watching you  
Stairing at the movie  
Wishing that could be you and me  
Staring out my car window  
I'm watching you watching you watching you watching  
you

Chorus

Baby I miss you  
Cause Baby I miss you  
Baby I miss you  
Cause Baby I miss you  
Baby I miss your love

Chorus x3
