We couldn't say them, so now we just pray them
Words that we couldn't say...

Funny, aint it? Game's people play
Scratch it, paint it, one in the same
We couldn't find them, so we tried to hide them
Words that we culdn't say...

It hurts don't it? Fool's on parade
Taint it, own it, chase it away
We couldn't make them, so we had to break them
Words that we couldn't say...

music interlude

Sometimes, baby we make mistakes
Dark and hazy, prices we pay
I sit here on my shelf, just talkin' to myself
Words that we couldn't say...

Someday maybe we'll make it right
Until that day, long endles nights
We couldn't save 'em, so now we just pray them
Words that we couldn't say... (~ repeat)
