You used to live so close to me I could die  
Call me up and bring me back to life  
Friend, far but never gone  
I forgot to say that it's been too long

Late nights and too much time  
On my hands I lie  
Awake with your song in my head  
Give up but never lose out  
Cause I've got you  
By my side

This is how it should be  
This is how it should be  
This is how it should  
Be, this is how

Every time, every time  
I feel you're gone  
I get your song in my head  
It's my favorite one  
Yeah every time, every time  
I feel you're gone  
I get your song in my head  
It's my favorite one

Eyes shut I lay down still  
Next to the speaker  
I think about the times we've been together  
Friend, far but never gone  
I forgot to say that it's been too long

This is how it should be  
This is how it should be  
This is how it should  
Be, this is how

Every time, every time  
I feel you're gone  
I get your song in my head  
It's my favorite one

Yeah every time, every time  
I feel you're gone  
I get your song in my head  
It's my favorite one  
The one you wrote  
When you were away  
My favorite song  
Reminds me of  
You, oh oh oh...  
You, oh oh oh...

This is how it should be  
This is how it should be  
This is how it should  
Be, this is how

Every time, every time  
I feel you're gone  
I get your song in my head  
It's my favorite one  
Every time, every time  
I feel you're gone  
I get your song in my head  
It's my favorite one  
The one you wrote  
My favorite song  
Reminds me of you
