(M.SchenkerR.McAuley)

Never thought that it could be
This kind of life for you and me
If you think you love someone else
Then show me the man, maybe I'll understand
'Cos I've done all I can
So I can't understand
I remember what we had going
Over and over on moonlit nights
Lord I still feel the passion flowing
Making a fool of me
What about those expensive places
How you danced, leaving me all alone
Yeah! I still remember those faces
Making a fool of me
Taking a chance on a fool like me
Was it all in the name of liberty
Now you know there's no easy way out
Baby! not this time

[Chorus:]

I don't wanna lose, such tears of emotion
I don't wanna lose, in all this commotion

You're making a fool out of me
Your guilt and your strange behavior
You should know you can't hide it from me
Yet still I could kill or die for
Anything you'd ask of me
Taking a chance on a fool like me
Was it all in the name of liberty
Now you know there's no easy way out
Baby! not this time

[Chorus]
