For all these years I've been rushing and running away

I've seen the cities  
the bars and the beaches

A fool - to keep away from you.  
I know I meet you a day for a lifetime I'm scared

One thousand years I can live on your smile

No escape - I'll run away forever.

Call it love  
just call it love.  
For all this time I've been crazy  
there is no escape

I'm back in the city  
back in my hometown and wait

I see your eyes forever.  
I know I meet you a day for a lifetime I'm scared

One thousand years I can live on your smile

No escape - I'll run away forever.
