"Eternal Legs"

Across the space
We fly around the world
For years, years, years, years

We're out of control
Inside an iron ball
Desire

We see the moon
A color ball
We won't be free again
No choice

An iron box
Electric brain release
Away, away, away, away

A piece of steel
That's all we ever feel
No pain

We see the moon
A color ball
We won't be free again
No choice

Desire

We see the moon
A color ball
We won't be free again
