Reach your hand out
Reach it out to me
Take my hand and show me how to live
You are my helping hand
Out of this empty hole
And through this deceitful life
I tried to give you all i have give
But you cut me off
Don't turn your back on me
Cause i need you so bad
Don't turn the other cheek
When i need you the most
Don't close your eyes on me
Cause i love you so much
I felt something for you
Something stronger than love
But then i screwed up
Now i want to take my life away

Reach your hand out
Reach it out to me
Take my hand and show me how to live
Put your arms around me
Love me once again
But you just have to trust me
Don't turn your back on me
Cause i need you so bad
Don't turn the other cheek
When i need you the most
Don't close your eyes on me
Cause i love you so much
