You know that my tears have kept me awake  
The longer you're gone, I'll hunger and shake  
From Warsaw to Rome, I'll wait out of time  
With you in my heart, the rhythm divine

So won't you come close, bring this to an end?  
With each winter rose, my love I will send  
So tender the night when you hold me tight  
With you in my heart, the rhythm divine

With you in my heart, the rhythm divine

You know that these tears have kept me awake  
The longer you're gone, I'll hunger and shake  
From Warsaw to Rome, I'll wait out of time  
With you in my heart, the rhythm divine  
The rhythm divine, the rhythm divine

With you in my heart, the rhythm divine
