When youre down and need a friend  
Baby, i'm with you until the end  
Cause deep down, you're always been the one  
I cant pretend things are ok  
It just feels so right  
When youre in my arms  
When i kiss your soft lips  
All the pain just goes away  
When you told me you loved me

Oh please God help me now  
I need her to need me  
I know its right in the end  
Can you do that for me  
Shes the one for me  
I just dont know how to prove to her  
That i love her and we belong  
In eachothers arms dancing  
To the song that will  
Forever be the song  
That reminds me of such a beautiful girl

Baby, youre my perfect angel  
You bring light to my day  
I wanna hold you forever if thats ok  
I wanna dance with you when the sun  
Goes down until the sun comes up  
Ive always had a special place for you  
In my heart, but now  
You are my special place, in your arms

I wanna be the one  
That makes you laugh  
I wanna be the one  
You dream about at night  
I wanna be the one  
you come to when you cry  
I'll be your savior, no lie  
Just give me one chance  
To prove that you and i  
Where made for eachother

My head hurts, it thinks  
About you to much  
My heart hurts it loves  
For you to much  
I just wish you felt the same

You are always there for me  
And i always want to be there for you  
And hope you love me too  
You mean everything to me
