Fly
I am trying to fly
To leave it all behind

You
You could heal my wounds
I am trying to leave it all behind
To leave it

You are the one who will keep me breathing
When all I have been is hurt by fairweather friends

Lies
The world is full of lies
To lead me on

I
I could fix my eyes
Maybe this time I will fix my eyes
On you

You are the one who will keep me breathing
When all I have been is hurt by fairweather friends

Maybe this time
I could fix my eyes

You are the one who will keep me breathing
When all I have been is hurt by fairweather friends

You are the one who will keep me breathing
When all I have been is hurt by fairweather friends
Fairweather friends
Fairweather friends
Fairweather friends
