

## **Yellow Second "Simple"**

a simple song about anything but what I would normally  
sing about  
all smiles and a catchy tune  
and pretty soon I'll forget I'm here  
I know these things work out  
you're weeping, I'm keeping these secrets all to myself  
no need to start up a fight  
if that's all right, I'll remain silent  
I know these things work out  
you were under water  
walking on the ocean floor  
so far from shore  
cold and uninviting were the waves  
I lost my nerve  
it's what I deserve  
I know these things work out
