The whole world was sleeping  
And I was there  
You could just sense this feeling in the air  
Like no one's words were good enough to define what  
we feared  
And no one's words were strong enough to fix what  
happened here

[Chorus]

Lead on to save me  
Lead us all there  
Find me some answers  
One nation beware  
Can't tell the difference between myth and man  
Or what's necessary or where I should stand

The whole world is different now men have died  
They can just sense this feeling in our eyes  
Like no one's hands are big enough to hold onto this  
fear  
And no one's hands are strong enough to fix what  
happened here

[Chorus]

So do we do now  
Raise our voices loud  
Were searching for something that cannot be found  
Here open mouths  
I see open hands  
Blinded and silent I can't understand

The whole world is watching with one blank stare  
I can just sense this feeling of ill-repair  
Like no one's heart is full enough to keep away this fear  
And no one's heart is strong enough to fix what  
happened here

Lead on to save me  
Lead us all there

Find me some answers  
It's time that you shared  
Can't tell the difference between myth and man  
Or what's necessary or where I should stand

So do we tell now  
Raise our voices loud  
We're searching for something that cannot be found  
I hear open mouths  
And I see open hands  
Like the blinded and silent I can't understand.
