Intro: Thank you for refilling up my fuel again
I never thought I'd be happy just before an end
(before) I was in love but you hurt me so bad
I thought it was the world's end.
Then... you... CAME.

Chorus 1:... and everything so right
You gave me the fire without a kiss.
I never wanna miss that look in your eyes.
Hearing your voice, makes me feel so nice.

Stanza 1: I never thought that I'd be ready
You caught my heart hmm immediately
Now that you're near my heart pump so dear
You make me wanna say come over hear

Refrain: I like your technique, every time you speak
You make this heart oh baby feel so weak
Don't like this before but makes me want you more

Chorus 2: Because you came and everything so right
You gave me the fire without a kiss.
I never wanna miss that look in your eyes.
Hearing your voice, makes me feel so nice.

Stanza 2: Everyday makes sense again
About this feeling don't wanna end
You make my heart beat faster
Oh I wanna say it louder

Refrain: I like your technique, every time you speak
You make this heart oh baby feel so weak
Don't like this before but makes me want you more

Chorus 2: Because you came and everything so right
