Visit "[If Well Fall In Love](#)" on [MotoLyrics.com](http://MotoLyrics.com)

There will be no ordinary days for you  
If there is someone who cares like I do  
You've got no reason to be sad anymore  
I'm always ready with a smile with just one glimpse of  
you

Refrain:

You don't have to search no more  
Cuz I am someone who will love you for sure

Chorus:

So, if we fall in love  
Maybe we'll sing this song as one  
If we fall in love we can write a better song than this  
If we fall in love we will have this melody in our heads  
If we fall in love anywhere with you would be a better  
place

You can watch sad movies in a different light  
Cuz I will be right there beside you  
Hugging you oh so tight (oh so tight)  
Your hands will never feel so cold and empty again  
Cuz i will keep on holding on and won't let go (never let  
you go)

Repeat Refrain

Repeat Chorus

Coda:

Feel so good when you're around  
One smile from you (one smile from you) makes my  
days feel so right

Repeat Chorus
