everything you need to let go
when we speak, we breathe
when we breathe we feel
allow me
and watch me lay my thoughts down
right here, right now
I can't breathe
my speech is slow
I don't know
I just don't know whether or not I will speak
I want to breathe
I want to breathe
We are off
and we can't pretend for a second that we're clean
we are off
and the path will not open until I say go
Set free
It's killing me
I'm blacking out
and it's so hard feeling the pain of not breathing
we are off
and we can't pretend for a second that we're clean
we are off
and the path will not open until I say go
It's hard feeling the pain of not breathing
When we speak we breathe
when we breathe we feel
Letting the light spread
when the energy is amongst our fingertips
letting the waves crash when they're able to cause
danger
is where we descend
I can break me down
It can break you down
You can't break me down
when we speak, we breathe
