This is the Outthere Brothers, back in the room

Ready to rock the world with the boom

So I hope you can stand the vibration

Cos we're about to rock the entire nation

Girl your booty is so round

I just wanna lay you down

Let me take you from behind

I won't come until it's time

But if I cannot sleep with you

Baby I could have a taste

Put your nobby on my tum

And your booty on my face

Ow, I came to make you shake it

Till you break it

Caress your body until you're naked

Bend you over

Grab your shoulder

Slip my peter inside your folder

Make you sweat-a

Get you wet-a

Pump it faster to make it better

Dim the the lights then lock the room

Cos now it's time for me to hit that boom

Boom boom boom now let me hear you say wayoh
(wayoh)

I say boom boom boom now everybody say wayoh
(wayoh)

I say boom boom boom now let me hear you say wayoh
(wayoh)

I say boom boom boom now everybody say wayoh

Girl your booty is so round

I just wanna lay you down

Let me take you from behind

I won't come until it's time

But if I cannot sleep with you

Baby I could have a taste

Put your nuddy on my tum

And your booty on my face
