[Akrobatik]

I knew it from the moment that I saw you  
You was just what I need  
See you the second grade teacher for my home boys  
seed  
He came to pick 'im up the other day and I was in the  
whip  
I saw you and immediately started to trip  
It's like I realized for the first time what beauty  
was..  
And all of this was even before I peeped the Gluteus-  
Maximum anxiety played the shy role  
Gave you a hello and a subtle eye role  
Shorties had you occupied though, a class cook out  
They wanna do the face paint and fried dough  
Well nice almost meetin'  
I wish you woulda heard my greetin'  
And then maybe we could go out on the weekend  
You sounded so articulate  
I want some time to pick your brain about a bunch a  
different shit  
I'm lookin' for a partner, to start the  
Greatest story ever told by any living author  
And I see you fittin' right in my zone  
Your good with the kids and got none of your own  
See my homie put me on, to the fact that you single  
and maybe a little lonely so I can't waste time  
see your body movement's kinda like a fly baseline  
and for you to be alone is just a goddamn crime  
I got a feelin' you and I  
Would make some fly mates  
But maybe we should start with a date  
I'll let you think about it..

[Chorus]

You don't even know I exist  
But I want you to  
And that's why I'm writin' you this  
Love Letter, Love  
A Love letter, Love a Love Letter  
Love a Love a Love Letter

## Love a Love Letter

[Mr. Lif]

Hey pretty lady I'm a shy guy  
Na that's a lie, closet freak with his head in the  
sky  
No I can't write that and she'll never write back and  
I need a plan of attack  
I comin' to you from a vulnerable place  
You don't know my name or my face  
My heart, my hopes or dreams that I chase  
We met once in passing  
You unleashed a passion  
I didn't know I had  
Then I'm \*wanting for action  
"Hi my name is Jeff!"  
"Hi Jeff I'm.." (oh my god she can't be real, hide how  
you feel)  
Extended my hand to greet you  
Feelin' see through  
Our palms met and I feel I felt your complete truth  
Your energy traveled through my arm causin' sensory  
alarm  
The life I knew before I met you is gone  
Let me be calm  
Here's a little bit about me  
I travel the world as M-C  
My intimacy is in my poetry and lurks behind closed  
doors  
And in my head I'm fightin' my own wars  
I feel I got a purpose and a cause, Cause I lay awake  
at night  
My eyesight seems to be addicted to \*gloomy light  
An introvert kid, move out and be converted  
Loved, known and nurtured  
Observed with a little intrigue, inspired when I feel  
fatigue  
A simple man with simple needs or so I believe  
What I feel about you  
Those are secrets that I'm clinging to tight  
I can only pray and hope that I'm right  
People search for this feeling til their gray  
So I couldn't let you slip away  
Please give me a call some day

[Chorus]
