Fingers numb, feel sick again  
I call on you, you my friend  
You've stung my heart  
With your goodbyes  
The lemon sweet of your lies

Let the dirt cover me  
Kiss the sky, as you fly on high  
Over all that's left to be  
I'll see you when I fall

I'm so tired, put me to sleep  
I dig a hole, I dig down deep  
I see faces in the black  
Grabbing hands pulling me back

I am lost within myself  
No I can't be someone else  
So many things still left to say  
I'll see you when I fall

Face the phantoms in my sleep  
They say time heals, will it for me?

With every cut you're in too deep  
As sorrow plants another seed

I let the dirt cover me  
Kiss the sky, as you fly on high  
Over all that's left to be  
I'll see you when I fall

I'm so tired, put me to sleep  
I dig a hole, I dig down deep  
I see faces in the black  
Grabbing hands pulling me back

I am lost within myself  
No I can't be someone else  
And it makes me wonder why  
All good things they come to die

Behold the sadness in my eyes  
Iâ€™ll forget and live my life  
Though youâ€™ll burn inside of me  
Iâ€™ll see you when I fall.
