[Chorus]

They don't know how far back that we go (we go)
From riding skates, to riding 24's
From off the block hustlin to rockin shows
We done seen many bumps in the road
But still we remain, still in the game
Never worry , about them haters, that will never change
And i put this on everything babe
I am my brother's keeper.

[Verse : Kain]

Listen D-roc, i know you don't think i care for ya, but at
a drop of a dime i'll be there for ya, and anybody want
to see us apart we need to get rid of
They ass man and that's from the heart. Pick em apart
now that the ying yang twins got some ends, we seem
to have plenty of friends. excuse me then friend,
Let me borrow a stack and when tomorrow comes don't
ask me to borrow it back. If they can't do that they don't
contribute to the answer ? ? from the ?
Serious as cancer. If i was jojo dancer i would do the
same thang, not to let another man spark my flame. D-
roc is the ying , Kain is the yang but without
The both of us we aint got a damn thang. it's me and
my brother, my brother and me, all that you see on TV

[Chorus]

[Verse : D-roc]

United states of Atlanta it's still me and my brother we
done been through a lot but still kain i love ya. blood,
sweat, and tears, good days and bad from
The time you make me laugh you made me mad. I still
got cha back but imma take ya way back when we was
sufferin just to get a nickle sack, scraping up
Change trying to make 2 dollars or 3 to get some 99
cent hamburgers to eat and then ride thorough atlanta
in yo raggedy car. back then we was some

Underground superstars and these last 5 years we
done put work in, now the whole world know of the ying
yang twins. Even though we don't spend time at home
Together, we hit the road and it's like we never left
each other. Now that's love. I love you til the day that i
leave so it's still my brother and me.

[Chorus]

[Verse: Kain and D-roc]

People of the world we must change our mind frame
and stay away from the con and mind games. it's hard
to maintain and stay sane at the same time, steady
Working hard but you bareky gettin by trying to make a
line between stress and peace and satan always gettin
the best of me, my closest of kin, my best
Friend, man we all in the struggle but you gotta
remember im yo brother.

Listen people you need to start helping yo brother,
helping yo sister, mama, daddy, children and all. don't
leave these babies out here all alone they
Don't know what's going on. They don't know right from
wrong, so when you see yo brother give him a hug and
a shoulder to lean on and don't leave him out here
On his own cause times gettin hard these days. We at
war amongst ourselves and we at war overseas
brother.

[Chorus]
