### "Torn And Weathered"

I see why its so hard to see through a shattered dream  
I see myself in my own well being  
I see why its so hard for you to see through this broken  
window  
Was it wise to have thrown the rock, rock, rock?  
How far can u go? How long will you strive?  
I will strive until this day seeks its tragic end.  
Broken window, shattered dream  
Shattered window, broken dream  
Broken window, shattered dream  
Shattered window, broken ..  
Broken window, shattered dream  
Shattered window, broken dream

So I try  
Raw, torn and weathered piece of me  
I cant take this anymore
